OVERVIEW

Reinforced concrete structures in Arabian Peninsula are exposed to one of the most aggressive environments in the world, leading to premature deterioration and reduced service life of the structures. Whether it is saline ground water, high humidity, or chemical exposures, contaminants start to show signs of early aging and reduce structures' service life, if remain unattended. Studies show that cost of remedy increases manifold once signs of defects are visible. Early detection using proper engineering, assessment techniques and innovative technologies can help asset owners greatly reduce remedial cost and to restore service life of their structures.

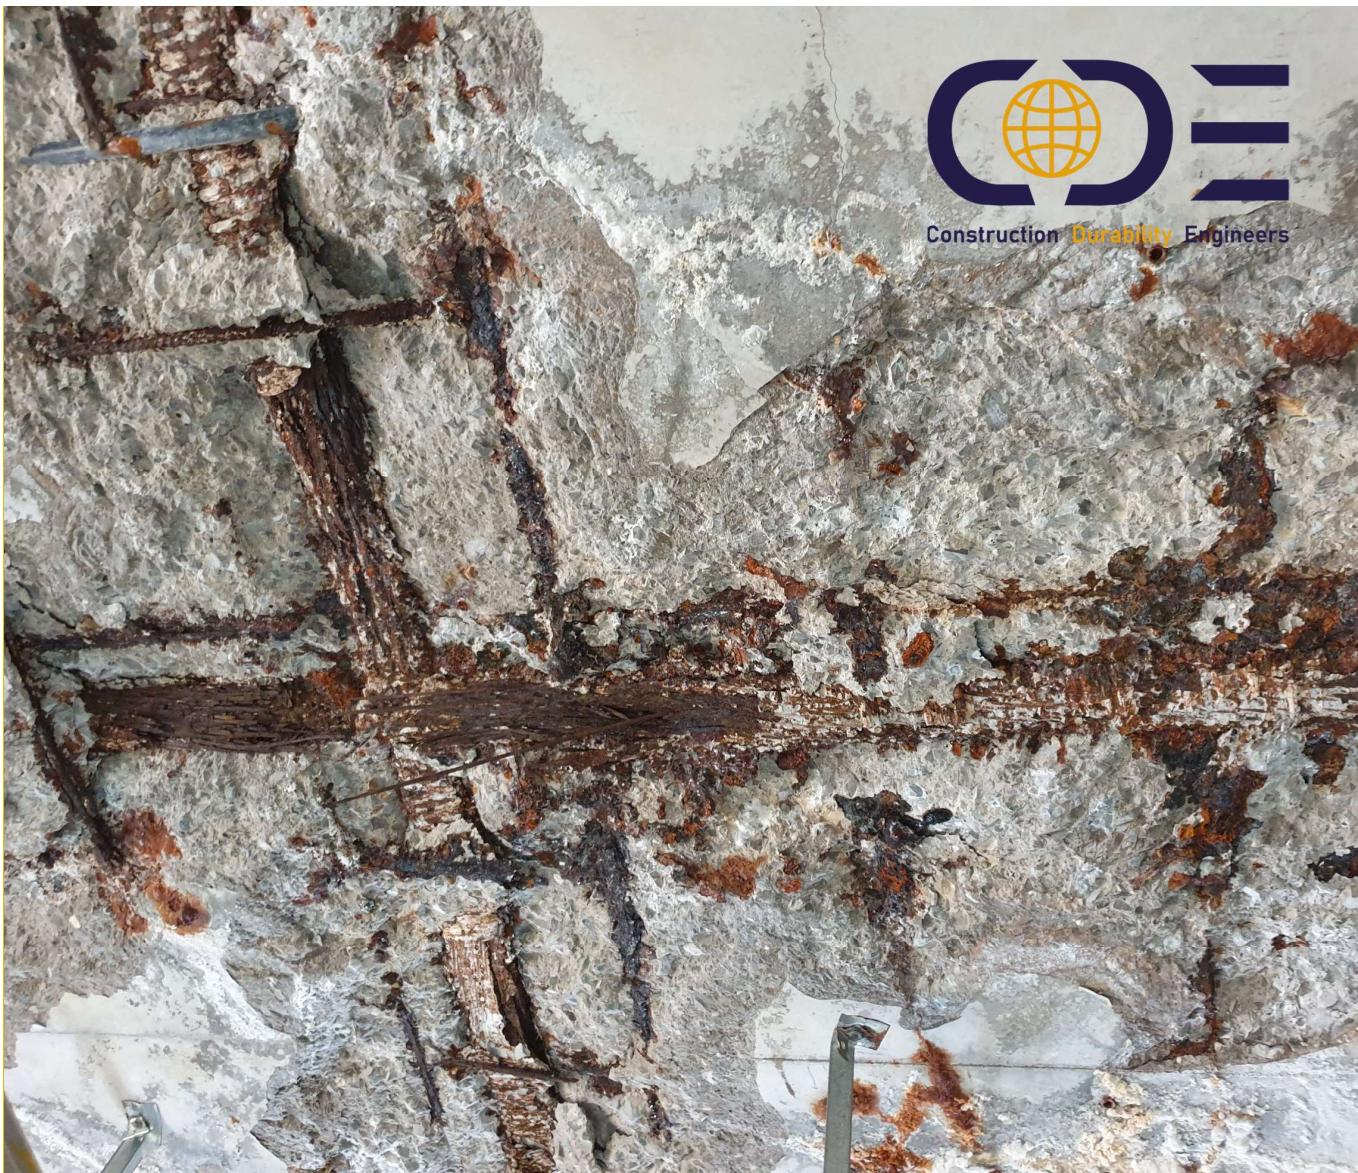

Arabian Gulf has also been center for fast paced real estate development to meet the ever-growing future demands of the region. Such fast paced development is associated with challenges in design and on-site execution. With global investors interest in existing properties, change in use of structures is also a common norm, which requires specialized knowledge and expertise in design modification.

With the above concerns and objectives in mind, Construction Durability Engineers (CDE) is formed with aim to providing advance engineering solutions to the asset owners in the Gulf that are also cost effective. CDE is established by expert engineers from the local market that are supported by subject matter experts from around the world. CDE are motivated to assist Asset Owners, Facility Managers, Consultants & Contractors by providing engineering studies and solutions using most advance engineering practices from around the world. Owners are educated to make informed decisions about their structures with estimated budgets and service life options.

CDE are equally capable of offering change in use development and remedying deficient structures by providing innovative strengthening design solutions of existing load carrying elements along with generating performance specifications to execute such scope.

Construction Durability Engineers

Services

Concrete Restoration & Rehabilitation Engineering

Construction Durability Engineers (CDE) provides extensive concrete restoration and rehabilitation engineering services, including the investigation and evaluation of existing structures, design of remedial measures, and quality control monitoring during restoration projects.

We advise on various repair and rehabilitation strategies and help Client to determine the best fit to their assets based on required service life. Our integrated service offering means we have the capability to assist throughout the entire remediation process, from inspection, testing and diagnosis to remediation design, drafting, tender documentation and provide onsite engineering and supervision of the concrete repair work.

Investigations/Evaluations of Existing Structures

CDE restoration specialists identify and evaluate the condition of various components in existing facilities, using innovative testing methods to enhance traditional investigation.

A correct diagnosis establishing the cause, nature and extent of damage, and the weakness or deterioration caused in the structure is very essential, since a faulty diagnosis may lead to improper selection of materials and repair techniques leading to the failure of the repaired zone again. It may also be necessary that the serviceability of the structure is checked after carrying out the necessary repairs.

Condition Assessment

A structural condition assessment is the process of collecting observations and data and systematically using them to evaluate and assess the condition of an existing structure. Structural condition assessment is the physical examination and diagnosis of the health of a structure.

CDE offers condition assessment on structures in a wide range of aggressive climatic conditions around the world, including; Buildings, Bridges, Tunnels, Ports, industrial Plants

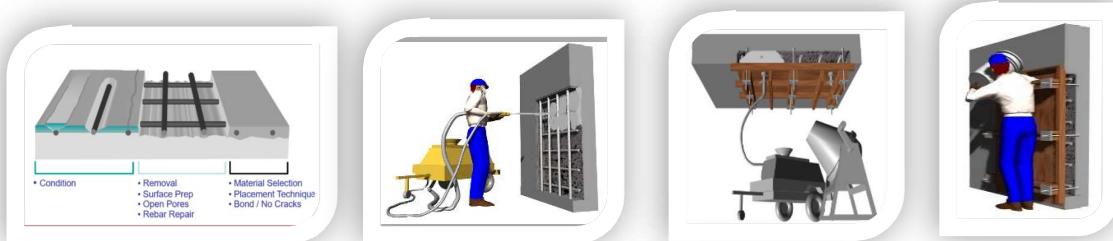

We provide an overview of current condition of assets for corrective work to remedy the physical deficiencies in the written report for each property which includes:

- ❖ Visual Inspection Survey
- ❖ Review of available documents
- ❖ Field and Laboratory Testing
- ❖ Establish root cause of observed deterioration
- ❖ Provide recommendation for rectifications

Repair Recommendation and Design

It has been estimated that 50 percent of repairs are not performing satisfactorily due to errors in design, construction and/or material selection. CDE helps in design and implement repairs of deficient elements that restore service life and property value.

To ensure the quality of repair works, Clients require comprehensive documentation that is complete with all the technical information needed to undertake remediation and construction to the required standard. Having experts with experience in repair, protection and refurbishment of structures, we help ensure that remediation projects deliver the outcome and service life you require. As consultants, we understand of Clients needs and, we design solutions that match durability and operation needs.

Tender Document & Repair Specifications

Each rehabilitation project is unique which require careful attention to detail design, repair methodology, and material selection. Our professionals are experienced adopt the latest materials and most advanced technologies to best meet our clients' project needs.

We prepare tender documents, including an investigation/evaluation report that identifies restoration/rehabilitation program alternatives, scope of work describing the necessary restoration work, drawings, technical specifications and bill of quantities.

Repair specifications including repair materials, repair methodology, and paint specifications for structural rehabilitation projects.

Quality Control Services

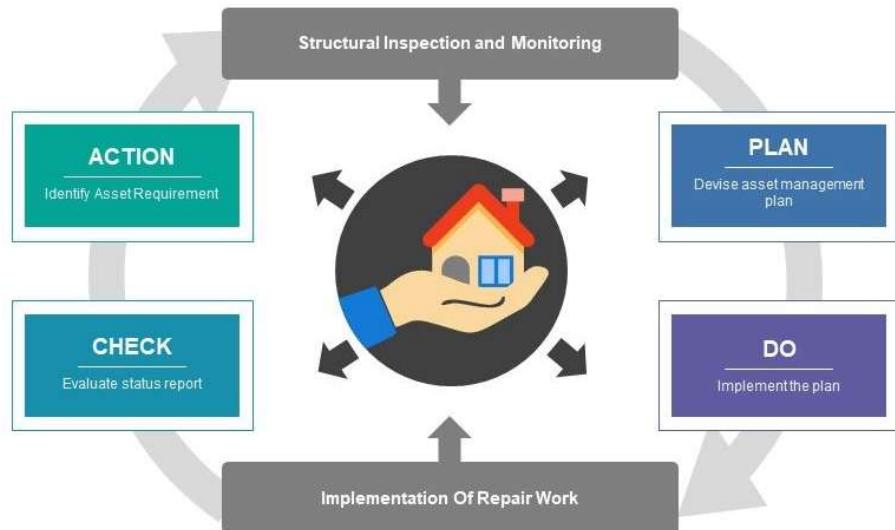

CDE provides repair supervision including quality control monitoring services that include field observations and testing to facilitate conformance with contract documents. Our trained professionals are able to provide a range of technical services throughout the rehabilitation project from full time site-based supervision to part time hold point check.

We actively participate in your projects offering assistance in the development of quality assurance documentation, training contractors and supervising construction and testing, ensuring all work on your asset meets your technical expectations.

Maintenance Programs

Our professionals can create a maintenance manual for the restored or rehabilitated structure that defines required inspections and identifies who should perform the inspections and at what frequency. In addition, we recommend repair procedures and materials for typical defects that may develop subsequent to restoration/rehabilitation operations.

Durability Engineering Services

Construction Durability Engineers' services include;

Durability Planning

Durability plans provide a framework for the design of assets and components so their intended service lives will be achieved. CDE can help designer with preparation of durability plan even in concept stage. The process used in development of a durability plan for the project involved the following steps:

- ❖ Definition and classification of exposure conditions
- ❖ Identification of potential deterioration mechanisms
- ❖ Prediction of rate of deterioration
- ❖ Determination of measures required to achieve design life in service environment

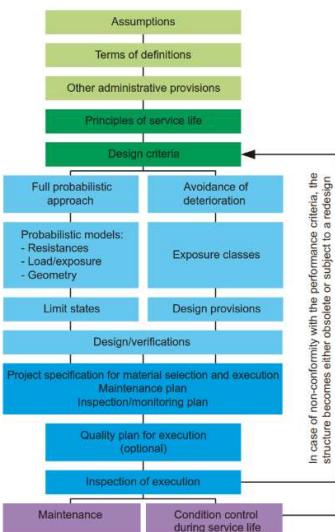

Durability Assessment

The service life of concrete structures is dependent upon a range of factors that directly influence the rate at which deterioration occurs and the provision of protective measures as required. The basic approach will be adopted to resist the aggressive environment is to provide durable structures.

Our durability strategy will consist of the following critical success factors:

- ❖ integrating structural design and durability design
- ❖ engineered selection of materials from the wide range of durability products available, based on:
 - analyzing critical deterioration mechanisms
 - identifying construction process constraints affecting selection
 - establishing concrete mixes by durability modelling

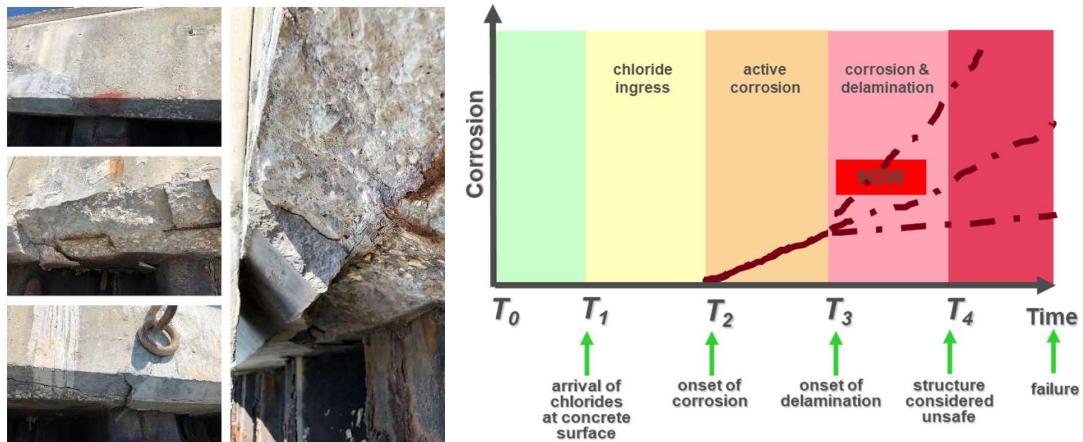

Remaining Service Life Assessment

A reliable prognosis of the condition of a structure is an important basis for an effective service life management. In order to determine the most economic point in time for repair measures to be taken along the lifetime of a structure, knowledge on the deterioration process at exposed regions as well as detailed knowledge about the current condition of the whole structure is essential.

CDE can provide following services:

- ❖ Concrete durability modelling.
- ❖ Calculation of remaining service life.
- ❖ Concrete contamination assessment including chloride ingress and carbonation depth testing and modelling.

Structural Assessment Strengthening Design

Structural Assessment

CDE provide expertise in the field of structural engineering, specializing in the evaluation, remediation, and preservation of existing structures, that have been compromised by corrosion, water intrusion, fire, overloading or change in use.

Consultancy services include modelling, analysis and strength evaluation of existing structures.

Preparation of As-built Drawings

As-builts are an important to obtain information about construction details of any structures. Unfortunately, sometimes with existing structure these information's are not available due to age of structure or poor data management.

These are essential for structures which requires analysis due to distress, which are indicating compromised structural integrity. Also, they are important for projects which are undergoing change in use (higher loading) or modification in terms of additional storey height.

CDE can help owner or design consultant by collecting information from site and convert it into scaled drawings with necessary details required for structural analysis. Proper As Built survey are aslo crucial in maintaining the economy of a modification.

Strengthening Design

Strengthening of structures are needed for restoration of deteriorated structural elements to originally intended capacity or to carry additional loads. CDE bring expertise in strengthening existing element with both modern (Carbon Fiber) and conventional (steel plates, concrete enlargements) techniques along with specifying the relevant performance specifications, to implement a respective strengthening plan with best Qa/QC procedures.

Fire Damage Assessment & Repair Design

Even after a severe fire, structures are often capable of being repaired rather than demolished. CDE's teams of engineers have extensive experience assessing fire-damaged structures and can specify well informed repair solutions.

CDE provides damage assessment of affected structural members on-site using visual inspection and non-destructive testing. Where necessary, samples may be removed for strength testing or petrographic examination, which allows definitive determination of the depth and consequences of fire damage. The combined findings are used to prepare key diagrams and schedules detailing the damage.

The Assessment of fire damage is carried out in line with the Concrete Society Technical Report No. 68 and includes both on site and laboratory-based techniques to fully assess the significance of any extreme heat and correctly specify concrete repairs

CDE design bespoke repairs for fire-damaged structures in accordance with relevant codes of practice, to provide the required strength, fire resistance, durability, form and appearance.

CDE service includes:

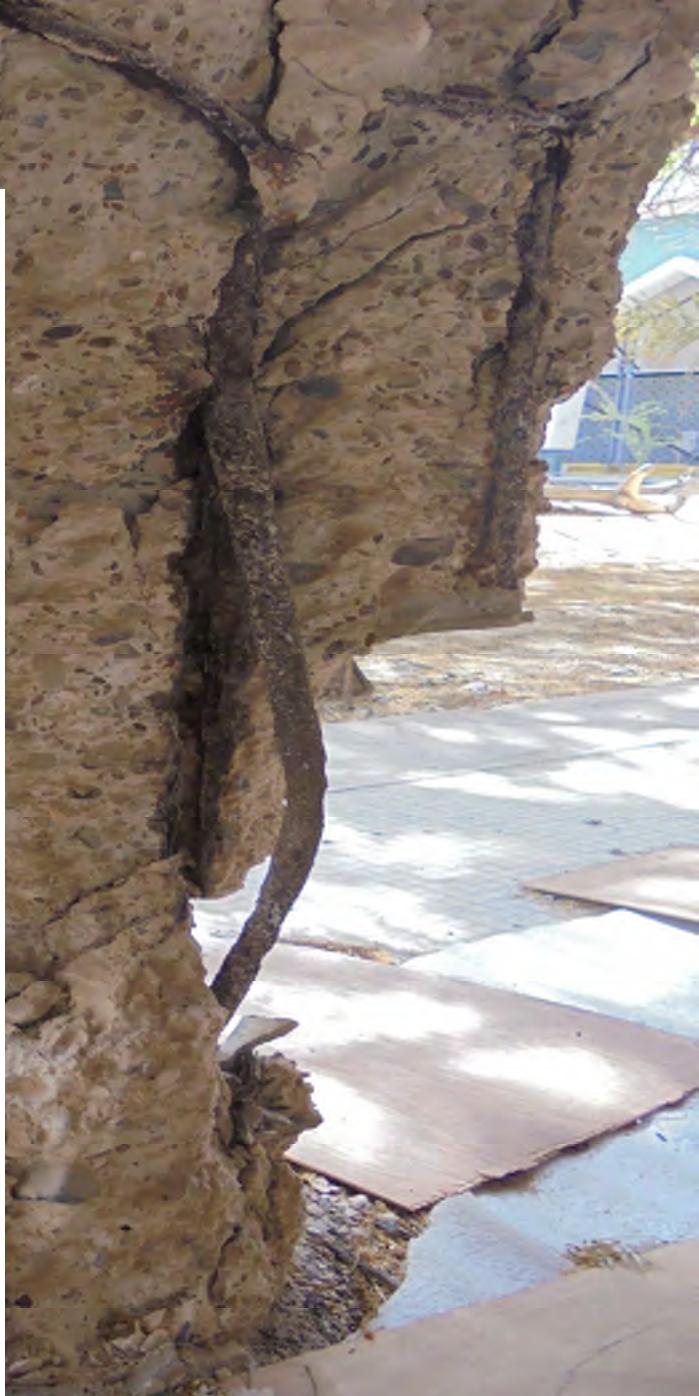

- ❖ Visual inspection of all accessible concrete surfaces and document fire-related defects.
- ❖ Non-Destructive Testing (NDT).
- ❖ Condition drawings outlining results from visual inspection and NDT of concrete surfaces.
- ❖ Core and rebar samples from representative and accessible concrete surfaces.
- ❖ Repair Design.

Construction Durability Engineers

Our Experts

Mohammed Aslam Khan, B.E. Civil

BACKGROUND

Aslam has seventeen years of experience in the construction industry, thirteen years in the Middle East, with knowledge and expertise in condition assessment of existing structures, forensic engineering investigation and to providing technical support on concrete repair works. Proficient in preparing detailed technical reports, including durability plans and investigation reports advising the most appropriate and practicable durability enhancement/rehabilitation strategies.

He got extensively involved in investigation of concrete distress corrosion and concrete cracking issues, condition surveys, deterioration remediation, remaining life estimation repair and supervision of structures, providing related technical advice on numerous high-profile projects in the Middle East.

He started his professional carrier in building construction with Quick Builder, Pune, India in 2003 as a civil engineer and later he joined Larsen & Toubro Limited ECC Division, Mumbai, India in 2007. There he got extensively involved in building construction supervision works having responsibilities for monitoring site activities to ensure quality of work in compliance with contract requirement and relevant standards.

Moved to United Arab Emirates in year 2008 and joined Halcrow International Partnership started working in the field of concrete technology durability design and condition assessment works for existing structures. In year 2016 he joined SIMCO Middle East and worked in the capacity of operation manager, based in Dubai, leading team of engineers involved in investigation of concrete distress corrosion and concrete cracking issues, condition surveys, deterioration remediation, remaining life estimation repair and supervision of structures.

AREAS OF EXPERTISE

Aslam has been involved in condition and durability assessment of various types of structures over past eighteen years. He has extensive exposure to concrete building (basements), bridges, tunnels, ports, sulfur pits and industrial support structures (silos, pits, gas chambers, foundations), and marine structure. Below are highlights of areas of his core expertise:

CONDITION ASSESSMENT & REHABILITATION

- Experience in condition survey procedures of concrete structures using a variety of investigation and interpretation.
- Investigation of concrete distress corrosion and concrete cracking issues.
- Experience in forensic investigation of concrete structures.
- Designing forensic investigation scheme using NDTs and SDTs.

MATERIAL TECHNOLOGY

- Detailed knowledge of concrete technology specific to the building and construction industry.
- Material selection considering long term durability requirement.

DURABILITY & SERVICE LIFE ASSESSMENT

- Durability design for concrete structure including preparation of concrete specification, durability plans at construction stage.
- Service life assessment for existing structures.

FIRE DAMAGE STRUCTURES

- Assessment (forensics testing), and repairs of fire damaged concrete structures.

ACADEMIC BACKGROUND

- Bachelor of Engineering, Civil, University of Amravati, India, 2003
- Diploma in Civil Engineering, Maharashtra Board of Technical Education, India, 2000
- Design, Construction and Protection of Concrete Structures including Concrete in Coastal and other Aggressive Environment, National Council for Cement and Building Material, Mumbai India 2006
- Concrete Strengthening Techniques and Design Considerations, Structural Preservation Middle East, Dubai, 2010
- Upgrade of Corr-Pred (Concrete Durability Modeling Suite), Halcrow, Dubai

PROFESSIONAL EXPERIENCE – ENGINEERING PROJECTS

- October 2016 to June 2021, Senior Project Manager, SIMCO Middle East, Dubai, UAE
 - Fire Damage Assessment at Water Feature Plant Room at Expo Dubai
 - Condition assessment and repair design for various basements in UAE
 - Repair Engineering and QA/QC Services for Aramco SRU Sulfur Pit Rehabilitation at Shedgum, Yanbu, Wasit and Berry Gas Plants
 - Condition Assessment for Quay walls for Emirates Global aluminium (EGA)
 - Berth L&T, Jetty C1 Sohar port, Condition and Service life Assessment;
 - Condition Assessment and Evaluation of Q71-SRU TR-300 Sulfur Pit at Sulfur Recovery Unit, Wasit Gas Plant
 - Condition Assessment of Wetscrubber units for Emirates Global Aluminium Plant
 - Hospital Staff Accommodation, Hatta, UAE - Condition Assessment
 - Residential Complex at Business Bay, Dubai, UAE- Evaluation of Concrete Overlay on Raft
 - Amity School, Dubai, UAE – Roof Beam Investigation

- Shindagha Tunnel, Dubai, UAE - Corrosion Investigation, Concrete Quality and Service Life Assessment
- Langham Place Downtown, Dubai, UAE - Inspection and Testing of Shoring Piles
- Sohar Industrial Port, Oman - Assessment of Cracking in Capping Blocks of Quay Walls 4, 5 & 6
- Merano Tower, Business Bay, Dubai, UAE – Condition Assessment
- The Address Downton Dubai, UAE – Inspection of Cracking and Corrosion Assessment of Air Vent Room
- Culvert at Fujairah Port – Condition assessment
- February 2008 to October 2016, Materials Engineer, Halcrow International Partnership (A CH2M HILL company), Dubai, UAE

Material Support:

Providing technical support for approving concrete mix designs, material submittals review and approval, updating and preparation of material specifications. Projects worked for include:

- STEP Pumping Station, Abu Dhabi
- Marsa Al Seef Development, Dubai
- Hard Rock Hotel, Abu Dhabi
- Palm Jumeirah Boardwalk, Dubai
- Dubai Pearl Dive Pool, Dubai
- Fountain Views development, Dubai
- Zabeel link bridge, Dubai
- Varsha Port, India
- Qurum Height Road, Oman - Slope protection works
- Permanent crossing for pipe line corridor at Ruwais
- Umm Al Naar Bridge, Abu Dhabi
- Ruwais Sulphur Expansion Phase III, Abu Dhabi
- Manifa Causeway, Saudi Arabia
- Seeb International Airport, Oman

Durability Assessment:

Provided technical inputs and durability modelling support for preparation of durability assessments. Projects worked for include:

- Inner Doha Resewerage Implementation Strategy (IDRIS) – Review of contractor's durability assessment.
- Route 2020 Metro Rail Project – Preliminary durability assessment.
- Obhur creek crossing – Bid stage durability strategy

- Oman Rail – Bid stage durability strategy
- Bunya Sea Bridge – Durability assessment
- STEP Pumping Station – Updating durability assessment
- Mina Zayed Link Tunnel Abu Dhabi, Category 3 check

Condition Assessment, Remaining Life Prediction:

Extensively involved in investigation of concrete distress corrosion and concrete cracking issues, condition surveys, deterioration remediation, repair and supervision of structures. Projects worked for include:

- Marsa Al Seef Project - Dubai Creek quay wall
- Downtown Dubai Development - Underground Car Park Leakage
- Technical audit of water transmission project at 21 sites in south Batinah-Oman for PAEW
- Al Rayyan Complex, Condition Assessment of Constructed Structural Elements, Sharjah
- Historic Union House as part of Etihad Museum, Dubai
- Dubai Dry Dock floor
- Al Mawakeb schools, Dubai
- Cultural Village Phase-1 Infrastructure
- Port of Mesaieed- Investigation, repair and refurbishment of the berths and jetties for Qatar Petroleum (QP).
- Abu Dhabi Oil Company Complex
- Al Yas Island Bridge

Site based role:

Assist the Resident Engineer in ensuring that all works in the project are in accordance with the specifications and project requirements. Monitor contractor's works to ensure compliance with specifications, plans and drawings. Review material approval submittals, method statements, etc. and provide recommendations to Resident Engineer for final review and approval. Liaise with client representatives, contractors, site engineers and sub-contractors on issues related to the review and approval of materials, method statements, and other technical documents related to materials.

- Burj Al Arab Island Development, Dubai – Pile preparation work supervision
- Hard Rock hotel, Abu Dhabi
- Dubai Downtown Development
- Ras Al Hamrah Development, Oman
- Lusail Development, Qatar
- Dubai Creek Golf and Yacht Club – Boardwalk Timber Pile Repair
- IFFCO, Grain Terminal – Concrete repair & Cathodic Protection

Dilawar Hussain, B.E. Civil

BACKGROUND

Dilawar has nineteen years of experience in the construction industry, seventeen years in the Middle East, with knowledge and expertise in designing and supervision of PT structures, design related to strengthening, rehabilitation and restoration of concrete structures. He has also participated in forensic investigation and condition survey of concrete structures and developed repair and strengthening specification.

He started his professional carrier with Fourth dimension Engineering consultancy, Mumbai, India in 2003 as a structural designer and got extensively involved in designing of PT structures mostly consists of slabs, beams of commercial & residential projects. He also worked on a G+3 structures from initial concept to final design layout.

He moved to United Arab Emirates in year 2008 and continued his personal development in the same field at SSK Prestressing Concrete LLC, Dubai where he worked as design manager responsible for tendering and its relative management of Post tension structures. He was coordinating and taking relevant authority and consultant approval for respective projects and ensuring QA/QC for post tension elements and its related work items, procedures on site.

In year 2011 he joined SPME Middle East Contracting LLC (a Structural group of companies) and worked in the capacity of team leader, based in Dubai, leading team of engineers involved in projects related to strengthening design of existing structures, repair design including PT, fire damaged structures, forensic engineering investigation and technical support on concrete repair works. With involvement in numerous high-profile projects in the Middle East Dilawar has acquired extensive experience in the field of in the field of rehabilitation and repair engineering.

AREAS OF EXPERTISE

DESIGN AND ASSESSMENT OF PT STRUCTURES

- Experience in designing and supervision of PT structures.
- Evaluation of condition of PT structure

STRUCTURAL ASSESSMENT & STRENGTHENING DESIGN

- Experience in design related to strengthening, rehabilitation and restoration of concrete structures.
- Development of repair and strengthening specification.
- Expertise in QA/QC related procedures related to retrofitting and repair of concrete structures.

FIRE DAMAGE STRUCTURES

- Assessment (forensics testing), design, and repairs of fire damaged concrete structures

CONDITION ASSESSMENT

- Experience in condition survey procedures of concrete structures using a variety of investigation and interpretation
- Experience in forensic investigation of concrete structures.
- Designing forensic investigation scheme using NDTs and SDTs.

ACADEMIC BACKGROUND

- Bachelor of Engineering, Civil, Rajiv Ghandi Proudyogiki Vishwavidyalaya, India, 2002
- PTI member
- Dubai Municipality register Engineer in Post tension design, Concrete Restoration
- Concrete Strengthening Techniques and Design Considerations, Structural Preservation Middle East, Dubai, 2011-2021
- Design and necessary implementation of Pt structures (2003-20011)

PROFESSIONAL EXPERIENCE – ENGINEERING PROJECTS

- October 2013 to 2021, Senior Structural Engineer
 - Entrepreneur Business Village (Clock tower Dubai) 2005 : Bonded Pt design and its relative management, was fully responsible for all the necessary approvals and necessary site coordination and QA/QC check.
 - Silicon Gates 1 (Silicon Oasis) : PT design management of this prestigious 28 story tower, a multiuse development with complex design. Coordinated with all parties for necessary approval, and necessary QA/QC procedures and implementation.
 - Bright Point Hospital (2012) : Change in use structure where an existing tower was converted into a hospital. Strengthening was required at localized location at different levels on existing PT slab. Strengthening inform of CFRP, concrete enlargements (mostly shear caps for punching) was proposed and implemented.
 - Investigation of Rulers Court Old Diwan (2012) : As Built survey and forensic investigation of Old Rulers court building considered for preservation as a heritage site. Scope also included providing repair recommendation to address the age-related deterioration and enhance the service life of the structure.
 - Bloom central (2013) : Strengthening of existing transfer beams holding column supporting 25 levels above. Involved in design coordination within inter department, local authority approval and QA/QC procedures on site. Original beams were 3.7m wide x 2.2m deep
 - Burjuman Center Expansion (2014): Then 20 years old iconic Mall went for a major renovation to add a carrefour market and a 14 screen Vox cinema, along with new food,

fashion and other outlets. Involved in strengthening design and related management including authority and project consultant approval to final implementation on site. Strengthening in form CFRP (columns, walls, slabs), steel Plate (stitching of expansion joints to transfer diaphragm forces), concrete enlargement (columns, walls).

- Hamad Medical Expansion joint Repairs- Qatar (2014) : Laying out repair specification and details for expansion joint to accommodate a movement of around 60mm. PTFE coated bearing plate system was proposed to accommodate larger movements along with enlarging supporting corbel width to support the slab.
- Jaber Al Ahmad International Stadium – Kuwait City (2015) : Design coordination with different entities for strengthening of corbels, repair of expansion joints and strengthening of slabs, beams with CFRP.
- Address Hotel Fire – Forensic investigation of elements affected due to fire. PT replacement, shoring design and related QA/QC control measures monitoring for proposed repair, rectification works.
- Midfield Terminal Strengthening (2016): Full strengthening design along with necessary coordination and approval from project consultant, ADM, ADAC. Proposed strengthening for columns, beams with CFRP and enlargement. Was involved actively in weekly technical meeting, and issues related to implementation of proposed strengthening on site
- Reem Island PT repairs (2017) : Method statement for investigation of grouted , non-grouted tendon. Laying out specification for grouting of non-grouted tendons. Repair design and related procedures for rectification of corroding tendons. Full QA/QC control procedures and related evaluation on site.
- Dubai mall Retail Expansion (2017-2021) : The project included conversion of major parking areas in retail spaces as part of retail expansion. Strengthening included strengthening of hollow core slab, PT beams, enlargement of columns for slenderness, strengthening around new smoke openings in hollow core slab. Management of strengthening design along with approvals from project consultant, authorities, laying out strengthening specifications. Ad hoc decision on designs changes due to existing site constrain, QA/QC control measures for proposed strengthening, repair

Marion Ladisla, B.S. Civil

BACKGROUND

Marion has 8 years of experience in construction industry, 3 years in the Middle East, with knowledge in building construction, civil and architectural works. He also worked as a façade quality control engineer.

He started his professional career with Monolith Construction and Development Corporation, Philippines as a site engineer in 2014, and a year later he joined New City Builders Incorporated, Philippines as a quality control engineer. There he got extensively involved in of building construction from foundation to finishing works, ensures that workmanship has been done with accordance to project specifications and contract requirement. In year 2019, he moved to United Arab Emirates and joined Technical Glass And Aluminium Company started working in façade industry.

EXPERTISE

- 4+ Years' experience in QA/QC Works and Civil Construction Operations. Registered Civil Engineer from the Philippines; Bachelors Degree of Science in Civil Engineering;
- Has proven ability and works exceptionally reliable to do miscellaneous project monitoring reports using various software applications (AutoCAD, MS Word, Excel & PowerPoint).
- My experiences in Middle East have helped me develop my professional working relationship and deal among, managers, supervisors, peers and particularly, the public with multi-cultural diversity.

CORE QUALIFICATION AND SKILLS

- Strong over-all project management
- Excellent written and oral communication skills
- Can handle/communication with different ethnicity of people
- Superior expertise in civil engineering report and project estimate calculation techniques
- High organizational and supervisory skills
- Sound ability to ensure full project compliance with applicable rules and regulations
- Proficient in using MS Office (Word, PowerPoint, Excel)

PROFESSIONAL EXPERIENCE

Project Engineer

(February 2022 - Present)

CDE Engineering Services

Repair Works Supervision & Quality Control:

Monitor contractor's works to ensure compliance with specifications, plans, and drawings. Liaise with client representatives, contractors, site engineers, and sub-contractors on issues related to the review and approval of materials, method statements, and other technical documents related to materials.

- Hyatt Regency Dubai
- The George Hotel
- Nirvana Residential Building

Condition Assessment:

Extensively involved in the investigation of concrete distress corrosion and concrete cracking issues, condition surveys, deterioration remediation, repair, and supervision of structures. Projects worked for include:

- Business Venue Building
- Residential Building at Ayal Nasir
- Villa F73 at Palm Jumeirah
- Clover Bay Tower

QA/QC Engineer (January 2019 – January 2022)

Technical Glass and Aluminium Company – Dubai, UAE

SLS Dubai Hotel & Residences – 5B+G+5P+65 Floors+4 MEP Floors+ Roof

Icon Bay Residential Tower DCH – Tower 1: 2B+G+43Storey | Tower 2: 2B+G+4Storey

- Ensures the effective on-site implementation of quality management system procedures and forms.
- Ensures that the quality records prepared and completed in accordance with project quality plan and procedures, such as ITPs and Quality Control Checklist are properly controlled.
- Monitors work performance by checking comments on RFI's, ITPs, punch list and reports.
- Compilation of all necessary quality control checklists.
- Ensures that all test equipment is calibrated and suitable for use on-site.
- Manages and conducting the inspection of all materials delivered to site to check their conformance to specified requirements.
- Ensures that consultant/client inspection requests/comments are implemented.

Construction Durability Engineers

QA/QC Civil Engineer

(May 2015 – September 2018)

New City Builders Inc. – Iloilo, Philippines

Megaworld Festive Walk Annex

- Inspection of construction works and materials
- Reviews construction plans, shop drawings
- Supervision of sub-structure, slab-on-grade and suspended slabs (Formworks, Rebar and Concreting)
- Supervision of architectural works
- Leads the surveying team during the actual setting-out works
- Prepares Bar Cut/Bend submittals and fabrication
- Prepares Request for Information/Request for Approval queries to consultants
- Assist in Planning construction methodology
- Coordinate with sub-contractors and suppliers for work progress
- Coordinates all site inspections with the site sub-contractors

Site Engineer

(January 2014 - April 2015)

Monolith Construction Development & Corporation – Cebu, Philippines

Robinsons Galleria Cebu

- Reviews construction plans, shop drawings
- Planning and Preparation of daily site work schedule
- Provides reference elevations and grid points Structural works to Surveyor
- Conduct supervision and inspection of all installed forms and rebar
- Conduct supervision of architectural works

ACADEMIC BACKGROUND

Bachelor of Science, Civil Engineering, 2013

University Of Santo Tomas, Manila, Philippines

Construction Durability Engineers

Kamil Hussain , B.S. Civil

BACKGROUND

Kamil has 3+ years of experience in construction, oil and Gas industry, as structural Engineer. He started his professional career with Young Associates Consulting Engineers and Architects in Karachi Pakistan as junior Structural Engineer in 2020, and later he joined Optimum Engineering Services as a Structural Engineer. There he got extensively involved in structural designing of RCC buildings and steel structures including sub and super structures, in year 2022 he joined Velosi Assets integrity and safety Pakistan as Team Lead Structural Engineer.

EXPERTISE

- 3+ Years' experience in designing RCC, steel structures and Rehabilitations and assessment of both RCC and steel structures. Registered Civil Engineer from the Pakistan ; Bachelors Degree of Science in Civil Engineering;
- Has proven ability and works exceptionally reliable to do miscellaneous project monitoring reports using various software applications Etabs ,Csi Safe , staad pro, AutoCAD Sap2000, Ram Connection , idea static , life 365, ASDIP (retain / foundation) , AFES , MS office Tools
- Having knowledge about the codes
- ACI318-19, UBC-97, ASCE7-16, ACI 473R-19, ACI 437R_03, ACI 365 ACI 201.1R-08, BCP 21

CORE QUALIFICATION AND SKILLS

- Excellent knowledge of design and visualizations soft wares
- Familiarity with rules, regulations, best practices and performance standards
- Ability to work with multiple discipline projects with new ideas and plans.
- Decision making ability and leadership skills
- Time management and organization skills
- Accuracy and attention to details and work independently
- Ability to work round the clock

Construction Durability Engineers

PROFESSIONAL EXPERIENCE

QA/QC Engineer (Oct 2022 – July 2023)

Velosi Assets Integrity and Safety Pakistan Karachi, Pakistan

- Design every kind of Steel with their connections and RCC Structures Using recent updated ACI318-19,, UBC-97 ASCE7-16, ACI 473R-19, ACI 437R_03 ACI 201.1R-08 Codes Using Design Application i.e., ETABS ,SAFE, SAP
- STAAD PRO ,RAM CONECTION, IDEA STATICA and AFES
- Lead and Manage Structural and drafting team, assign task to them according to projects priorities.
- Check all details in drawings and in reports before finalize it.
- Perform Rehabilitation analysis of existing structures (RCC and Steel structures)and carry out the necessary retrofitting design.
- Conducted engineer's estimate BOQs for Projects.
- Do visual inspection to check current situations i.e., cracks seepage and recommend solutions accordingly
- Prepare, schedule, coordinate and monitor the assigned engineering projects.
- Visits Sites to check the project according to drawings Assign responsibilities and mentor project team.
- Interact daily with the clients to interpret their needs and requirements and represent them in the field.
- Inspect all major concrete and steel structures and supervised.
- Assisted in the set up and maintenance of Engineer's reports.
- Visit Different cities to check the projects and to meet new clients for upcoming project discussion

Analysis and perform life assessment of existing structure

Structural Engineer

(Jan 2021 – Oct 2022)

Optimum Engineering Services Karachi, Pakistan

- Design wind resisting Steel structures, sheds pipe racks, pipe supports and sleepers for pipes.
- Design ring wall foundations for large dia oil Tanks.
- Design canopies for pump stations with connections.
- Design machines foundations, isolated, combined and eccentric foundations for static and dynamic loading conditions
- Design ground mounted and roof mounted solar panel frames and pad foundations considering uplift forces.
- Design water and oil retaining structures i.e. dyke wall, bund wall, cantilever retaining walls etc.

Construction Durability Engineers

- Conducted engineer's estimate BOQs for Projects
- Preparation of structural analysis reports, drawings and material take-offs (MTO).
- Attend meetings with clients.
- Interfaced and Collaborate with Mechanical Electrical and plumbing team for input and clash resolution.
- Make structural design report for every project to ensure clients requirements.
- Pedestal. Anchor bolts and base plate design.
- Reviewing structural drawings.
- Connection design of steel structures with idea static and ram connection according to standards.

Junior structural Engineer

(March 2020 - jan 2021)

Young Associates Consulting Engineers and Architects Karachi, Pakistan

- As structural Engineer I was responsible for the planning, preliminary and detailed engineering design of RCC Mid and High Rise Residential, commercial, Educational and steel structures project Planning and Preparation of daily site work schedule
- Check all story irregularities i.e., Vertical and horizontal) Soft story, torsion irregularity center of mass rigidity story drifts story deflections
- Done dynamic and static analysis for different structures
- Checking the force/reaction, calculations of load by influence area method and comparing the reaction with SAFE
- Detailed analysis and design of structures Using ETABS, SAFE, SAP Excel sheets
- Extracting the reinforcement details from analysis software and comparing the percentage of steel with minimum codes requirement
- Considering static and dynamic analysis Response spectrum analysis, P delta analysis stresses failure analysis (shear, flexural, torsion, deflections crake width)
- Calculating punching shear, one-way two-way shear in raft and isolated foundation
- Fulfill client's and project requirement considering that project should be stable structurally and should be economical
- Preparing Design Reports and calculation Notes Coordinating and following up with BIM/drafting Team

Project: Zayed Port Condition Assessment

Location: Abu Dhabi, UAE

Client: Jacobs, Main Client: Abu Dhabi Port

Scope of Services:

- ❖ Detailed assessment of the berths considering existing condition, based on condition assessment on its structural components.
- ❖ Review of material testing report and preparation of reports
- ❖ Prepare detailed scope of work for recommended refurbishment scope of works that shall include but not limited to repair drawings, execution strategy, detailed Bill of Quantities, cost and schedule estimates.

CDE Deliverables:

- ❖ Condition Assessment Report
- ❖ Repair Drawings & Estimates
- ❖ Repair Scope and Specifications

Project: Injaz Building PT Investigation

Location: Dubai, UAE

Client: WATRESEAL INSULATION MATERIAL CONTRACTING LLC

Distress:

- ❖ Cracking on Basement and Ground level
- ❖ Localised corrosion of PT tendon
- ❖ Localised delamination and spalling

Scope:

- ❖ Visual Inspection and survey
- ❖ Post tension (PT) Investigation to assess existing PT condition
- ❖ Repair recommendation to address existing distress

Project: Investigation of Basements in 2B+G+11 Building in Umm Hurair

Location: Dubai, UAE

Client: Bu Haleeba Contracting

Distress:

- ❖ Water leakages in basement wall and slabs
- ❖ Localised corrosion of PT tendon near pan boxes
- ❖ Localised delamination and spalling in walls and slabs
- ❖ Cracks in Columns, walls, Pt slabs

Scope:

- ❖ Assessment of probable root cause of observed deteriorations
- ❖ Condition Assessment to evaluate risk of future deteriorations
- ❖ Remedial measures and necessary repair recommendations

Project: Condition Assessment of Al Zainab School Ras Al Khaimah

Location: Ras Al Khaimah, UAE

Client: Etisalat Facilities management

Distress:

- ❖ Spalling and delamination of school staircases
- ❖ Delamination and spalling of slabs and beams
- ❖ Cracking in columns, beams, slabs

Scope:

- ❖ Assessment of probable root cause of observed deteriorations
- ❖ Remedial measures and necessary repair recommendations to enhance remaining service life

Project : G+M+12+Roof Building in sector E9-02

Location: Abu Dhabi, UAE

Client: Center Point Architectural Engineering

Distress

- ❖ Age related concrete spalling and delamination
- ❖ Cracking in Blockwork , slabs, beams
- ❖ Dampness and leakages

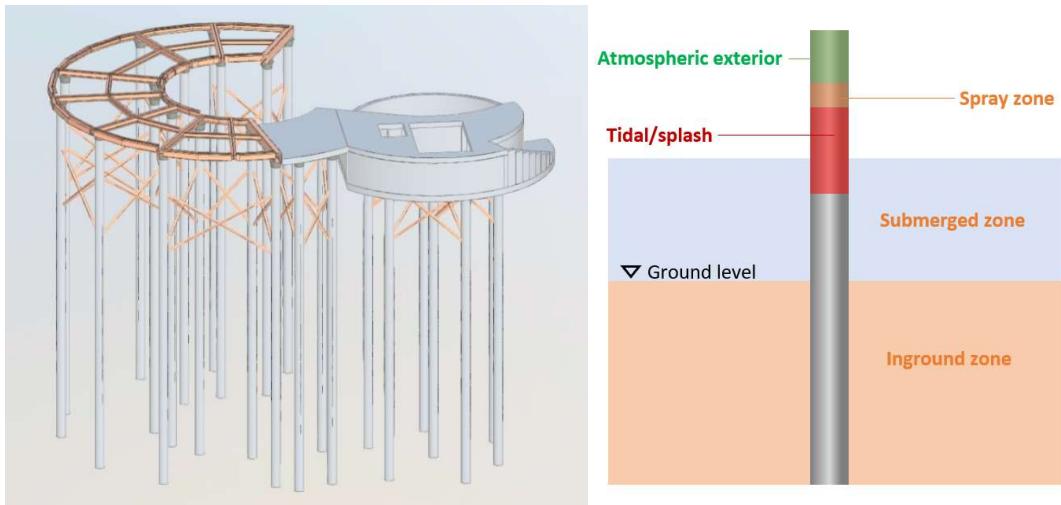

Scope

- ❖ Perform Condition Assessment of entire structure
- ❖ Repair recommendation to extend service life by another five years

CDE Deliverables

- ❖ Condition Assessment report with necessary repair recommendations
- ❖ Material specification, repair BOQ and tender document to rehabilitate existing building for another five years

Project: Red Sea Hotel, PHC Pile Durability Assessment

Location: Red Sea, Saudi Arabia

Client: Jacobs

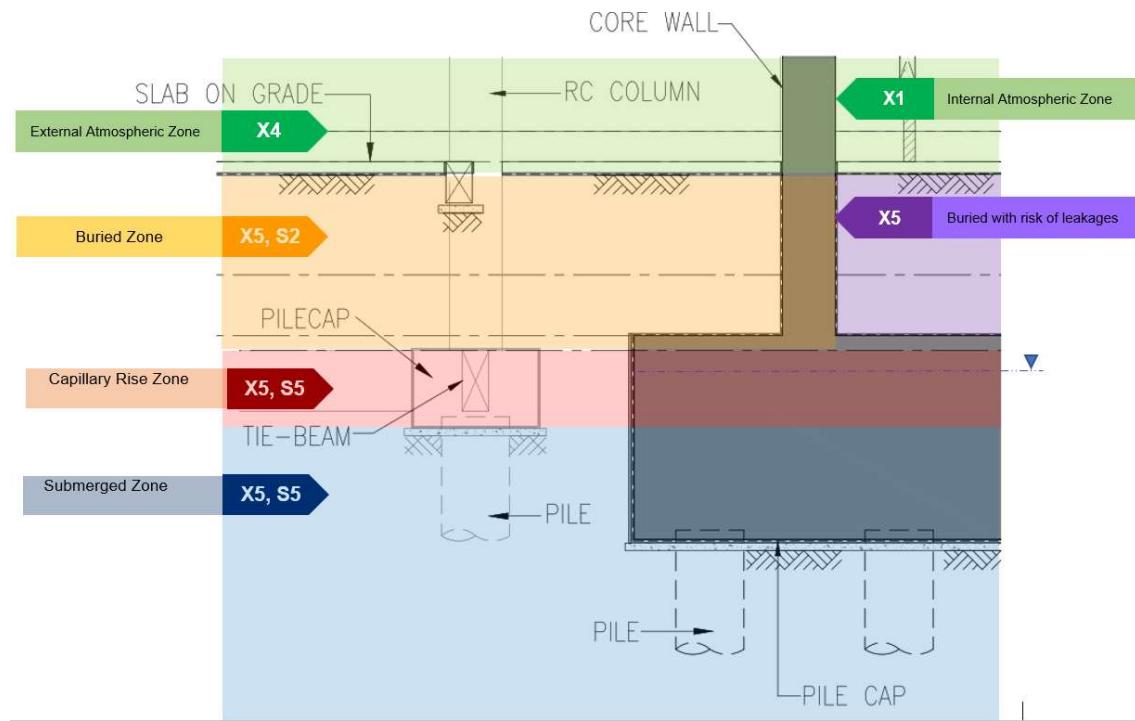

Scope of Services:

- ❖ Review of available documentations
- ❖ Defining exposure conditions
- ❖ Identifying deterioration mechanism
- ❖ Determining concrete transport properties
- ❖ Perform service life modelling
- ❖ Reporting findings

CDE Deliverables:

- ❖ Durability Assessment Report

Project: New Port Control Tower, Durability Assessment

Location: Ras Laffan, Qatar

Client: Arab Engineering Bureau (AEB)

Main Client: Qatar Energy

Scope of Services:

- ❖ Review and verify the previous Design Life & Structural Durability report.
- ❖ Update the previous Design Life & Structural Durability report based on the recommendations / details provided in the geotechnical report.

CDE Deliverables:

- ❖ Design Life & Structural Durability Report

Project: OOTO Berths Sohar Port Condition Assessment

Location: Sohar Port, Oman

Client: SIMCO

Main Client: Sohar Port & Free Zone

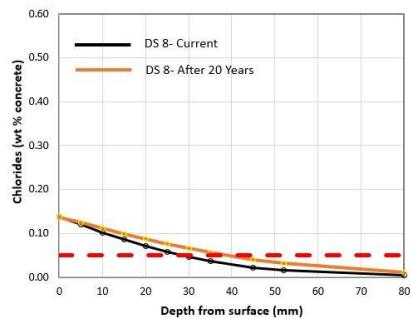

Scope of Services:

- ❖ Assess and evaluate the existing condition of the structure.
- ❖ Risk based defect assessment
- ❖ Conduct a Root-cause analysis on the deterioration issues that repeatedly occurs at the structure.
- ❖ Produce long term maintenance manual tailored specifically to the existing condition of the jetty.

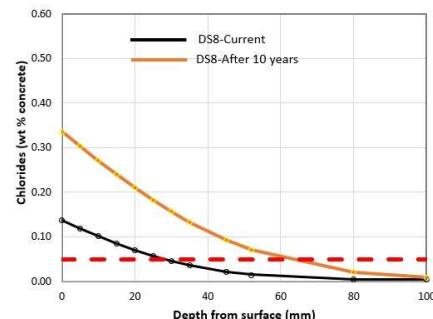

CDE Deliverables:

- ❖ Condition Assessment Report
- ❖ Repair Drawings & Estimates

Assuming No further surface chloride accumulation

Assuming further surface chloride accumulation

Project: Serenia Residence Basement, Durability Assessment

Location: Palm Jumeirah, Dubai UAE

Client: Palma Holdings

Scope of Services:

- ❖ Carryout further testing for measurement of concrete cover across basement raft and chloride content analysis in the concrete cover to confirm extent of contamination.
- ❖ Determine the likelihood and risk of future deterioration of the structure.
- ❖ Recommendation for repairs including providing concept methodology for rectification of leakages, detail design and method statement to be worked out by a specialist waterproofing contractor.
- ❖ Recommendation for future corrosion protection.

CDE Deliverables:

- ❖ Assessment and Recommendation Report

Project: Al MAHA Sofitel (B+G+24 Hotel Building)

Location: Doha, Qatar

Client: EURO POSTECH INTERNATIONAL (W.L.L)

Strengthening scope on Level 1:

- ❖ New staircase and shaft opening at two locations
- ❖ Removal of Existing cantilever slabs at two locations

Proposed Strengthening:

- ❖ CFRP for flexural deficiency
- ❖ New beam composite with existing PT slab trimming the new openings

CDE Deliverables

- ❖ Modelling of level 1 slab on Ram concept
- ❖ Strengthening Report
- ❖ Strengthening drawings with related performance specifications

Project: Double Storey Villa

Location: Seeh Al Ghab, Ras Al Khaima, UAE

Client: Al Hoty Laboratory

Distress

- ❖ Cracks on existing blockworks

Scope

- ❖ Mapping and distress analysis of cracks on existing blockwork
- ❖ Structural Assessment of Villa to ensure its structural integrity
- ❖ Repair recommendation to bridge the existing cracking

CDE Deliverables

- ❖ Global analysis of Villa
- ❖ Assessment report
- ❖ Strengthening schematics for deficient elements with related performance specifications and materials

Project: Deira City centre Office Entrance Roof

Location: Dubai, UAE

Client: ENOVA

Scope

- ❖ Strength integrity assessment of existing roof for new 20 numbers hydro panel units

CDE Deliverables

- ❖ Part modelling, analysis and capacity of entrance Roof
- ❖ Assessment report of roof to carry this additional loading
- ❖ Strengthening recommendation for deficient elements if any

Project: Renovation of K48 Villa, Nakhilat Jumeira 381

Location: Dubai, UAE

Client: WATRESEAL INSULATION MATERIAL CONTRACTING LLC

Scope

- ❖ Strengthening of Existing columns, beams, footings

CDE Deliverables

- ❖ QA/QC monitoring work
- ❖ Strengthening check at localised locations for proposed modifications

Project: SHATTI AL QURUM HOTEL, AND APARTMENTS, MUSCAT, OMAN

Location: Muscat, Oman

Client: EURO POSTECH INTERNATIONAL (W.L.L)

Strengthening scope on Level 3:

- ❖ Strengthening of South Block Level 3 PT slab at three locations

Proposed Strengthening:

- ❖ CFRP Plates for flexural deficiency at top

CDE Deliverables

- ❖ Strengthening Report with necessary calculation
- ❖ Strengthening drawings and related performance specifications

Project: Crack Assessment of Ongoing Cracking in Tower at Jumeirah Lake Towers

Location: DUBAI, UAE

Client: Young Engineering Consultancy

Scope:

- ❖ Assessment of ongoing cracking in PT slab

CDE Deliverables

- ❖ Site Investigation and material sampling
- ❖ Report covering the root cause analysis of cracks whether structural or non-structural, recommendation for repair and prevention of cracks in future slabs to be casted.

CLAUSES ATTACHING TO AND FORMING PART OF PUBLIC LIABILITY POLICY NO:
CA0223000127

CANCELLATION CLAUSE

This insurance may be terminated either at the request of the Insured or at the option of the Company by giving a 30 days' Notice of Cancellation in which case the Company shall only be liable to repay a ratable proportion of the premium being pro-rata for the unexpired period from the date of cancellation. However this option of cancellation is subject that there are no claims either paid or outstanding relevant to the period during which the company was on risk.

This Clause is subject otherwise to all the terms and conditions of the Policy to which it is attached.

DEFENCE COSTS CLAUSE

The Insurers will pay all costs, fees and expenses incurred with their prior consent in the investigation defense or settlement of any claim made against the Insured and the costs of representations at any inquest, inquiry or other proceedings in respect of matters which have a direct relevance to any claim made or which might be made against the Insured, provided such claim or claims are the subject of indemnity by this Policy. Such costs, fees and expenses are called "Defense Costs".

Insurer's total liability to pay compensation, claimants' costs, fees and expenses and Defense costs shall not exceed Indemnity Limits stated in the Schedule.

VALUE ADDED TAX (VAT) CLAUSE

Definitions

Value Added Tax means any value added tax or similar tax payable to any authority in respect of transactions and includes, but without limitation, any other form of taxation that maybe applicable to this contract.

1 VAT

1.2 All amounts expressed to be payable under this Insurance contract by the Insured to Insurer which (in whole or in part) constitute the consideration for any insurance services for VAT purposes are deemed to be exclusive of any VAT which is chargeable on that Insurance services, and accordingly if VAT is or becomes chargeable on any services made by Insurance Company to Insured customer under this contract and Insurance Company is required to account to the relevant tax authority for VAT on that services, that insured customer must pay to Insurance Company (in addition to and at the same time as paying any other consideration for such services or at the point the VAT becomes due to be paid by Insurance Company if earlier) an amount equal to the amount of that VAT (and Insurance Company must promptly provide an appropriate VAT invoice to that Insured customer where so required to by law).

1.3 Where this Insurance contract requires the Insured customer to reimburse or indemnify the Insurance Company for any cost or expense, The Insured shall reimburse or indemnify (as the case may be) Insurance Company for the full amount of such cost or expense, including such part thereof as represents VAT, save to the extent that such Insurance Company reasonably determines that it is entitled to credit or repayment in respect of such VAT from the relevant tax authority.

1.4 In relation to any services made by Insurance Company to customers under this Insurance contract, if reasonably requested by the customer, Insurance Company must promptly provide the customer with details of Insurance Company VAT registration and such other information as is reasonably requested in connection with the customer's VAT reporting requirements in relation to such insurance services.

ELECTRO MAGNETIC FIELD (EMF) EXCLUSION

Notwithstanding any provision to the contrary contained in this Policy or any endorsement thereto it is understood and agreed that this insurance excludes any claims or losses arising directly or indirectly out of non-ionic radiation including but not limited to Electro Magnetic Fields and/or Electro Magnetic Interference.

Subject otherwise to the terms exceptions and conditions of the Policy.

GENETICALLY MODIFIED ORGANISMS EXCLUSION

**CLAUSES ATTACHING TO AND FORMING PART OF PUBLIC LIABILITY POLICY NO:
CA0223000127**

It is hereby understood and agreed that this insurance shall not apply to emerging risks due to any claims or losses arising directly or indirectly from Genetically Modified Organisms (GMO).

For the purpose of this exclusion, GMO shall mean and include:

organisms or micro-organisms or cells, or the organisms or micro-organisms, cells or cell organelles, from which they have been derived, which have been subject to a genetic engineering process which resulted in their genetic change and shall also mean and include every biological or molecular unit with self-replication potential or biological or molecular unit with self-replication potential from which they have been derived, which has been subject to a genetic engineering process which resulted in its genetic change.

In the event that the definition of GMO under the applicable laws and/or official regulations relating to genetic engineering or modification in any State, territory or jurisdiction in which a claim is made is wider than the foregoing then such wider definition shall be incorporated into this definition in addition to the foregoing.

TRANSMISSIBLE SPONGIFORM ENCEPHALOPATHY (TSE) EXCLUSION

Notwithstanding any provision to the contrary contained in this Policy or any endorsement thereto it is understood and agreed that this insurance excludes any claims or losses arising directly or indirectly out of transmissible spongiform encephalopathy (TSE) including but not limited to bovine spongiform encephalopathy (BSE) or new variant Creutzfeld-Jakob disease (vCJD).

Subject otherwise to the terms exceptions and conditions of the Policy

ELECTRONIC DATA ENDORSEMENT

1. Electronic Data Exclusion

Notwithstanding any provision to the contrary within the Policy or any endorsement thereto, it is understood and agreed as follows:

(a) This Policy does not insure loss, damage, destruction, distortion, erasure, corruption or alteration of ELECTRONIC DATA from any cause whatsoever (including but not limited to COMPUTER VIRUS) or loss of use, reduction in functionality, cost, expense of whatsoever nature resulting therefrom, regardless of any other cause or event contributing concurrently or in any other sequence to the loss.

ELECTRONIC DATA means facts concepts and information converted to a form useable for communications, interpretation or processing by electronic and electromechanical data processing or electronically controlled equipment and includes programmes, software and other coded instructions for the processing and manipulation of data or the direction and manipulation of such equipment.

COMPUTER VIRUS means a set of corrupting, harmful or otherwise unauthorised instructions or code including a set of maliciously introduced unauthorized instructions or code, programmatic or otherwise, that propagate themselves through a computer system or network of whatsoever nature. COMPUTER VIRUS includes but is not limited to 'Trojan Horses', 'worms' and 'time or logic bombs'.

However, in the event that a peril listed below results from any of the matters described in paragraph (a) above, this Policy, subject to all its terms, conditions and exclusions, will cover physical damage occurring during the Policy period to property insured by this Policy directly caused by such listed peril.

Listed Perils

Fire

Explosion

2. Electronic Data Processing Media Valuation

Notwithstanding any provision to the contrary within the Policy or any endorsement thereto, it is understood and agreed as follows:

**CLAUSES ATTACHING TO AND FORMING PART OF PUBLIC LIABILITY POLICY NO:
CA0223000127**

Should electronic data processing media insured by this Policy suffer physical loss or damage insured by this Policy, then the basis of valuation shall be the cost of the blank media plus the costs of copying the ELECTRONIC DATA from back-up or from originals of a previous generation. These costs will not include research and engineering nor any costs of recreating, gathering or assembling such ELECTRONIC DATA. If the media is not repaired, replaced or restored the basis of valuation shall be the cost of the blank media. However this Policy does not insure any amount pertaining to the value of such ELECTRONIC DATA to the Assured or any other party, even if such ELECTRONIC DATA cannot be recreated, gathered or assembled.

INSTITUTE CYBER ATTACK EXCLUSION CLAUSE

- 1.1 Subject only to clause 1.2 below, in no case shall this insurance cover loss damage liability or expense directly or indirectly caused by or contributed to by or arising from the use or operation, as a means for inflicting harm, of any computer, computer system, computer software programme, malicious code, computer virus or process or any other electronic system.
- 1.2 Where this clause is endorsed on policies covering risks of war, civil war, revolution, rebellion, insurrection or, civil strife arising therefrom, or any hostile act by or against a belligerent power, or terrorism or any person acting from a political motive, Clause 1.1. shall not operate to exclude losses (which would otherwise be covered) arising from the use of any computer, computer system or computer software programme or any other electronic system in the launch and/or guidance system and/or firing mechanism of any weapon or missile.

ASBESTOS EXCLUSION:

It is hereby understood and agreed that this insurance shall not apply to and does not cover any actual or alleged liability whatsoever for any claim or claims in respect of loss or losses directly or indirectly arising out of, resulting from, in consequence of, contributed to or aggravated by asbestos in whatever form or quantity.

Subject otherwise to the terms exceptions and conditions of the Policy.

Nothing herein contained shall be held to vary, waive or change any kind of the insuring agreements, exclusions, conditions or declarations of the policy, except as herein above set forth

SANCTION LIMITATION AND EXCLUSION CLAUSE

No insurer shall be deemed to provide cover and no insurer shall be liable to pay any claim or provide any benefit hereunder to the extent that the provision of such cover, payment of such claim or provision of such benefit would expose that insurer to any sanction, prohibition or restriction under United Nations resolutions or the trade or economic sanctions, laws or regulations of the European Union, United Kingdom or United States of America.

INFECTIOUS OR CONTAGIOUS DISEASES LIABILITY EXCLUSION

The following perils, risks are excluded under this insurance :

Loss or damage caused directly or indirectly by:

**CLAUSES ATTACHING TO AND FORMING PART OF PUBLIC LIABILITY POLICY NO:
CA0223000127**

- a) Infectious or contagious disease manifested by any person or group of persons within the premises and/or by any past presence within the premises.
- b) Murder or suicide or pest occurring at the premises.
- c) Injury or illness sustained by any person arising from or traceable to foreign injurious matter in the food or drink provided on the premises.
- d) Defects in the drains, ventilation, air conditioning, water supply and any other sanitary arrangements at the premises (except for physical bodily injuries or material damages sustained out of a physical accident)
- e) Restriction of use of the premises (whether partial or total) by order of the competent public authority following the occurrence of a), b), c) or d).

Such loss is excluded regardless of any other cause or event contributing concurrently or in any sequence to the loss

COMMUNICABLE DISEASE EXCLUSION

1. Notwithstanding any provision to the contrary within this policy, this policy does not cover all actual or alleged loss, liability, damage, compensation, injury, sickness, disease, death, medical payment, defence cost, cost, expense or any other amount, directly or indirectly and regardless of any other cause contributing concurrently or in any sequence, originating from, caused by, arising out of, contributed to by, resulting from, or otherwise in connection with a Communicable Disease or the fear or threat (whether actual or perceived) of a Communicable Disease.
2. For the purposes of this endorsement, loss, liability, damage, compensation, injury, sickness, disease, death, medical payment, defence cost, cost, expense or any other amount, includes, but is not limited to, any cost to clean-up, detoxify, remove, monitor or test for a Communicable Disease.
3. As used herein, a Communicable Disease means any disease which can be transmitted by means of any substance or agent from any organism to another organism where:
 - 3.1. the substance or agent includes, but is not limited to, a virus, bacterium, parasite or other organism or any variation thereof, whether deemed living or not, and
 - 3.2. the method of transmission, whether direct or indirect, includes but is not limited to, airborne transmission, bodily fluid transmission, transmission from or to any surface or object, solid, liquid or gas or between organisms, and
 - 3.3. the disease, substance or agent can cause or threaten bodily injury, illness, emotional distress, damage to human health, human welfare or property damage.

PRINCIPLES OF TAKAFUL

In the Name of Allah the Most Gracious the Most Merciful

PARTICIPATION IN TAKAFUL SCHEME

Takaful is a scheme based on joint-guarantee, brotherhood, solidarity and mutual cooperation among a group of people called Participants to help and provide financial assistance to each other. The objective of the scheme is to provide financial protection to the Participants through the principles of Takaful, which encourage people to co-operate and help one another for a good cause as embodied in the teaching of Islam.

“... Help ye one another in righteousness and piety, but help ye not
one another in sin and rancor...” (Al-Maidah, verse 2)

In line with this concept the Participants shall agree to contribute a sum of money called Takaful Contribution into a common Takaful fund called General Takaful Fund (hereinafter called the “GTF”). With the payment of the Takaful Contribution, the Participants shall be entitled to the benefits provided under the terms and conditions of the Takaful Certificate in accordance with the Islamic Shari’ah principles of co-operation, mutual help and joint indemnity.

The Company, as the scheme manager, acts as an agent (Wakeel) in managing the Takaful operations on behalf of all the Participants. In return, the Company is entitled to a Wakalah fee which is deducted from the Takaful Contributions paid by the Participants. This Wakalah fee would be used by the Company to pay for its operational, administrative and general expenses. As approved by the Internal Shari’ah Supervision Committee of the Company, the Wakalah fee may constitute up to a maximum of 35% of the Takaful contribution accrued during the financial year.

The GTF shall be used for payment of claims (Takaful Benefits) to the Participants who are eligible in accordance with the terms and conditions of the Takaful Certificate. The Takaful Contributions to the GTF are considered as Tabarru'a for the purpose of solidarity and mutuality as embodied in the principles of Takaful. The Participants authorize the Company to secure re-Takaful protection whenever necessary to safeguard the GTF. Payment to re-Takaful, claims investigations and allocation for reserves shall also be deducted from the GTF.

INVESTMENT

The Company shall deal exclusively with managing and investing the assets of the GTF and surplus therefrom, if any, in accordance with the Shari'ah principles as guided by its Internal Shari'ah Supervision Committee. The Company undertakes to invest these assets separately from its own assets and free from any liens of its own creditors. Pursuant to this, and in full accordance with the approval of the Internal Shari'ah Supervision Committee, the Company is entitled up to 35% of the participant's investment revenue accrued during the financial year, as Mudarib profit share, and the balance shall be credited to the GTF.

Any losses due to investment and business risks as recognized under the Shari'ah rulings and associated with market conditions are initially borne by the GTF. And in conformity with rulings of the Shari'ah as well, the Company shall be liable for any proven loss to assets of the GTF if such loss is due to the act of breach of trust or negligence on the part of the Company.

DISTRIBUTION OF SURPLUS

If at the end of the financial year of the Company there is a net surplus in the GTF, the Participants shall be entitled to a share of the surplus. The surplus from the GTF would be calculated according to actuarial principles and in proportion to the contributions retained in the GTF after re-Takaful and Wakalah fees.

The Company shall distribute the surplus from the GTF as set out below:

- The entitlement of the Participant to the surplus shall be determined by taking into consideration all the claims incurred under the Takaful Certificate during the financial year and after making appropriate provisions for reserves.
- If the above is less than the amount of Takaful Contribution earned during the financial year under the Takaful Certificate, the Participant shall be entitled to the share of surplus on the amount of the difference between the Takaful Contribution and the claims and provisions above.

All eligible Participants will be notified of their share of the surplus. If the Participant fails to collect or cash the surplus within a period of 5 years from the date written on the aforementioned notification of surplus, then the Participant shall be considered to have forfeited its right to the share of surplus. Forfeited surplus shall be transferred to a reserve account under the GTF.

Should the Participant withdraw from the Takaful Scheme before the Expiry Date of the Takaful Certificate, no surplus will be paid.

GTF DEFICIT

In the event that the GTF has a shortfall in fulfilling its Takaful obligations, the Company shall grant an interest-free loan (Qard Hasan) from its standby capital to provide for the total amount of any losses in the GTF, which shall be recouped from future surpluses of the GTF.

AMALGAMATION OF FUNDS

The GTF fund may be amalgamated with other general Takaful funds. .

The whole scheme shall be governed by the principles and provisions of the Shari'ah as advised by the Company's Internal Shari'ah Supervision Committee

- ج. التعرف بشكل صحيح على أي تاريخ كتاريخ حقيقي.
- ii. أن يخزن أو يبقى و/أو يعالج أو يفسر أو يشغل بشكل صحيح أي بيانات أو معلومات أو أمر أو تعليمات نتيجة التعامل مع أي تاريخ بخلاف التاريخ الحقيقي له.

ii. To capture save or retain and/or correctly to manipulate interpret or process any data information command or instruction as a result of treating any date otherwise than as its true calendar date or

iii. To capture save or retain and/or correctly to manipulate interpret or process any data or information as a result of the operation of any command which has been programmed into any computer software which causes loss of data or information or the inability to capture save retain or correctly to process such data or information on or after any date

But this does not exclude subsequent loss destruction or damage arising therefrom as covered and not otherwise excluded by the policy which itself results from any of the following named perils which are covered by the Cover under which the loss arises.

Named perils

Fire lightning explosion aircraft aerial devices or articles falling from them riot civil commotion strikers locked out workers' persons taking part in labour disturbances malicious persons' thieves robbers earthquake storm flood escape of water from any tank apparatus or pipe impact by a road vehicle or animal or subsidence.

19) Losses arising, directly or indirectly from:

- a) the loss of, alteration of or damage to or
- b) a reduction in the functionality, availability or operation of a computer system, hardware, programme, software, data, information repository, microchip, integrated circuit or similar device in

iii. أن يخزن أو يبقى و/أو يعالج أو يفسر أو يشغل بشكل صحيح أي بيانات أو معلومات نتيجة تشغيل أي أمر تم برمجته في أي برنامج للحاسوب والذي يتسبب في خسارة بيانات أو معلومات أو عدم القدرة في تخزين أو الإبقاء أو معالجة مثل هذه البيانات أو المعلومات بشكل صحيح في أو بعد أي تاريخ.

ولكن هذا لا يستثنى الخسارة أو الدمار أو الأضرار التابعة التي تنشأ عما هو مغطى وغير مستثنى بخلاف ذلك بموجب شهادة التكافل والذي ينتج بذلك عن أي من المخاطر المحددة فيما يأتي والمغطاة من قبل الشهادة والتي تنشأ الخسائر عنها.

المخاطر المحددة
الحرائق، البرق، الانفجار، الاجهزه الجوية أو المواد التي تسقط منها، الاصطدامات ووقف العمل والأشخاص الذين يشاركون في القلاقل والاشخاص الذين يقومون بأعمال كيدية والتصوّص والسارقين والزلزال والعواصف والفيضان وتتسرب المياه من خزانات المياه أو الأنابيب أو اصطدام سيارات الطريق أو الحيوانات أو الهبوط الأرضي.

(19) الخسائر الناشئة بشكل مباشر أو غير مباشر من:

(a) خسارة، أو تعغير، أو تضرر

أو

a. انخفاض في أداء أو توافر أو تشغيل نظام الكمبيوتر، أو الأجزاء الصلبة أو البرامج والبرمجيات، أو البيانات، أو مستودع المعلومات، أو رقاقة، أو دائرة متكاملة، أو وحدة مماثلة في معدات الكمبيوتر، الذي ينتج من النقل الخبيث أو المهمل (الإلكتروني أو خلافه) لبرنامج كومبيوتر يتضمن كود خبيث أو ضار، بما فيه دون حصر فيروسات أو ديدان الكمبيوتر أو القابل المنطقية أو

computer equipment that results from the malicious or negligent transfer (electronic or otherwise) of a computer programme that contains any malicious and or damaging code, including but not limited to computer virus, worm, logic bomb, or Trojan horse and which can be identified as the cause of loss do not in and of themselves constitute a claim under this policy.

احسنة طروادة والتي يمكن تحديدها على أنها سبب الخسارة والتي لا تشكل في حد ذاتها وبعد ذاتها مطالبة بموجب هذه الوثيقة.

20) Exclusion of Asbestos:

Asbestos in accordance with the following:

Excluding all claims and losses based upon, arising out of, directly or indirectly resulting from or in consequence of, or any way involving:

- a) asbestos, or
- b) any actual or alleged asbestos related injury or damage involving the use, presence, existence, detection, removal, elimination or avoidance of asbestos or exposure or potential exposure to asbestos.

This exclusion shall not, however, encompass injury or damage involving products containing Asbestos where the existence if Asbestos is not in itself a direct or indirect cause of the injury or Damage.

(20) استثناء الأسبستوس:

استثناء الأسبستوس وفقاً لما يأتي:-

استثناء جميع المطالبات والخسائر التي تعتمد على أو تنشأ سواء بشكل مباشر أو غير مباشر من أو كتبت من أو تتصل بأي شكل من الأشكال بما يأتي:-

- (a) الأسبستوس، أو.
- (b) أي إصابة أو ضرر فعلي أو مزعوم يتعلق باستخدام أو تواجد أو وجود أو كشف أو إزالة أو التخلص من أو تجنب الأسبستوس أو التعرض المتحمل للأسبستوس.

على أية حال، لن يشمل هذا الاستثناء، الإصابة أو الضرر الذي يرتبط بمنتجات تحتوي على الأسبستوس حيث يكون وجود الأسبستوس في حد ذاته ليس سبب مباشر أو غير مباشر للإصابة أو الضرر.

.vii. تقديم إشعار للشركة مباشرة عند تسلم أي خطاب أو مطالبة أو أمر إحضار وأو إجراء على صلة بذلك، يتضمن على عدم الإقرار بمحتوى ما تم تسلمه

.viii. تقديم إشعار كتابي للشركة فور تسلمه أي طلب من النيابة أو تحقيق وفاة على صلة بأي حادث قد ينتج عنه مسؤولية بموجب هذه الوثيقة.

any occurrence for which there may be liability under this Policy.

3. Claims Co-operation

The Participant shall at the request and expense of the Company do and concur in doing and Permit to be done all such acts as may be necessary or reasonably required by the Company for the purpose of

- i. defending any claim.
- ii. enforcing any rights and remedies or
- iii. of obtaining relief or indemnity from other parties to which the Company shall be or would become entitled or subrogated upon its paying for or making good any loss destruction or damage under this Policy whether such acts shall be or become necessary before or after Participant's indemnification by the Company.

4. Rights of the Company

a) Control of Claims

- i. No admission offers promise payment or indemnity in connection with any injury loss or damage liability or claim shall be made or given by or on behalf of the Participant without the written consent of the Company.
- ii. The Company shall be entitled if it so desires to take over and conduct in the Participant's name the defence or settlement of any claim or to prosecute in Participant's name for its own benefit any claim for indemnity or damages or otherwise and shall have full discretion in the conduct of any proceedings and in the settlement of any claim.
- iii. The Participant shall not in any case be entitled to abandon any property to the Company unless taken possession by the Company.

3. التعاون في المطالبات

يجب على المشترك بناء على طلب ونفقة الشركة القيام وأو الموافقة على قيام الشركة بجميع الإجراءات التي قد تكون ضرورية أو مطلوبة بشكل مقبول عرفاً من قبل الشركة لغرض:-

i. الدفاع عن أي مطالبة.

ii. فرض أي حقوق أو تدابير أو الحصول على مساعدة أو تعويض من أطراف أخرى والتي تستحقها الشركة أو سوف تستحقها أو استرداد المبالغ المدفوعة عن طريق الحلول محل المشترك عند دفع أي مطالبة بموجب هذه الوثيقة سواء كانت هذه الأعمال ضرورية أو ستصبح كذلك قبل أو بعد تعويض المشترك من قبل الشركة.

4. حقوق الشركة

أ. التحكم في المطالبات

- i. لا يجوز للمشتراك أو من ينوب عنه تقديم أي إقرار بالمسؤولية أو عرض أو وعد أو دفع أي مبلغ أو تعويض على صلة بأي اصابة أو خسارة أو مسؤولية أو مطالبة بدون موافقة كتابية من الشركة.
- ii. يحق للشركة، إذا رأت ذلك، أن تتولى الدفاع أو تسوية أي مطالبات أو أن تباشر الدعوى باسم المشترك ولصالحه بخصوص أي مطالبة بالتعويض أو الأضرار أو بخلاف ذلك للشركة في هذا الشأن كامل السلطة في مباشرة أية اجراءات وفي تسوية في أية مطالبة.

- iii. لا يجوز للمشتراك في أي حال من الأحوال أن يترك ويتخلى عن أي من الممتلكات إلى الشركة، ما لم تتم حيازتها فعلياً من قبل الشركة.

ب. إبراء الذمة من المسؤولية

- i. يجوز للشركة أن تدفع للمشتراك في أي وقت فيما يتعلق بأية مطالبة أو سلسلة من المطالبات التي حدد لها حد تعويض لحادث واحد أو جميع الحوادث أو سلسلة حوادث لاحقة تعزى إلى مصدر واحد أو سبب

- b) Discharge of liability

The Company may at any time pay to the Participant

 - i. in connection with any claim or series of claims to which a Limit of Indemnity in respect of one occurrence or all occurrences of a series consequent on or attributable to one source or original cause is applicable the amount of such limit (after deduction of any sum or sums already paid as compensation) or any lesser amount for which such claim or claims can be settled.
 - ii. in connection with all claims to which a Limit of Indemnity in respect of any one Period of Insurance is applicable the amount of such limit (after deduction of any sum or sums already paid as compensation) or any lesser amount for which such claim or claims can be settled and upon such payment being made the Company shall relinquish the conduct and control of and be under no further liability in connection with such claim or claims except for the payment of costs and expenses recoverable or incurred prior to the date of such payment

5. Other Insurances

If at the time any claim arises under this Policy, there be any other insurance covering the same liability the Company shall not be liable to pay or contribute more than its ratable proportion of such claim and costs and expenses in connection therewith.

أصلی، تدفع الشركة مبلغ ذلك الحد (بعد خصم أي مبلغ أو مبالغ تكون قد دفعت بالفعل كتعويض) أو أي مبلغ أقل يمكن بموجبه تسوية تلك المطالبة أو المطالبات.

.ii. فيما يتعلق بجميع المطالبات التي ينطبق عليها حد التعويض فيما يتعلق بأي فترة تأمين واحدة، تدفع الشركة مبلغ ذلك الحد (بعد خصم أي مبلغ أو مبالغ تكون قد دفعت بالفعل كتعويض) أو أي مبلغ أقل يمكن بموجبه تسوية تلك المطالبة أو المطالبات، وبعد أن يتم الدفع فإن الشركة سوف تترك الإدارة أو السيطرة على تلك المطالبة أو المطالبات ولن تكون مسؤولة عن أي أثر ذي صلة بتلك المطالبة أو المطالبات باستثناء سداد التكاليف والمصروفات التي يمكن استردادها أو المتباعدة قبل تاريخ ذلك الدفع.

5. التأمينات الأخرى

إذا وجد تأمين آخر في وقت أي مطالبة بموجب هذه الوثيقة يغطي نفس المسؤولية، فلا تلتزم الشركة إلا بدفع جزء من قيمة تلك المطالبة أو التكاليف أو المصروفات معادل للنسبة بين مبلغ التأمين وبين مبالغ التأمينات مجتمعة على صلة بذلك.

GENERAL CONDITIONS

الشروط العامة

1) Unity of Policy and Interpretation

This Policy and the schedule shall be read together as one contract and any word or expression to which a specific meaning has been attached in any part of this Policy or of the schedule shall bear such specific meaning wherever it may appear.

1) وحدة الوثيقة والتفسير

يجب قراءة الوثيقة والجدول معاً كعقد واحد لا يتجزأ ويكون لأية كلمة أو عبارة أعطيت معنى محدد في أي جزء من الوثيقة أو الجدول نفس المعنى المحدد أينما وردت.

2) Privity of Contract

This policy of Insurance is a private and exclusive contract between the Participant and the Company All benefits rights and obligations under the terms hereof belong to or are owned by the Participant and the Company The Company is under no obligation whatsoever to defend settle compromise or otherwise respond to any action or claim brought directly and solely against the Company in respect of any risk covered by this Contract of Insurance by any person who is not a party to the said contract.

Nothing in this clause or condition or in the contract generally shall prevent the Company from exercising its rights of subrogation against any person who is not a party to this contract.

2) خصوصية العقد

تعد وثيقة التأمين التكافلي عقداً خاصاً وحصرياً بين المشترك والشركة حيث تكون جميع الحقوق و المنافع والالتزامات بموجب الشروط الخاصة بها ملكاً وخاصة بالمشترك والشركة. إن الشركة غير ملزمة، بأي شكل من الإشكال، بأن تدافع أو تقوم بتسوية أو تراضي أو بخلاف ذلك الرد على أي إجراء أو مطالبة يقدم بها مباشرة وبشكل فردي ضد الشركة أي شخص ليس طرفاً في العقد المذكور على صلة بأي مخاطر مغطاة بموجب وثيقة التأمين هذه.

لا يوجد أي شيء في هذه الفقرة أو الشرط أو في العقد بشكل عام يمنع الشركة من ممارسة حقوقها في الإخلال ضد أي شخص ليس طرفاً في هذا العقد.

3) Material Facts and Duty of Utmost Good Faith

The statements and answers in the Proposal and any material information provided to the Company by the Participant are true and complete in the event of misrepresentation miss-description or non-disclosure of such information this Policy shall be voidable.

3) الحقائق الجوهرية وواجب التعامل بمنتهى حسن النية

يتعهد المشترك بأن الإفادات والإجابات في العرض وأية معلومات جوهرية مقدمة للشركة من قبل المشترك حقيقة وتمامه. وتعتبر هذه الوثيقة قابلة للإلغاء من قبل الشركة في حالة الإلقاء بأي ادعاء كاذب أو أوصاف غير حقيقة أو عدم الإفصاح عن تلك المعلومات من قبل المشترك .

4) Adjustment of Contribution and Keeping of Records.

If the Contribution for this Policy is calculated on estimates furnished by the Participant the Participant shall keep an

4) تعديل الاشتراك وحفظ السجلات

إذا تم حساب المشترك الخاصة بهذه الوثيقة على أساس تقديرات قدمها المشترك، يجب على المشترك الاحتفاظ بسجل دقيق يحتوي على

accurate record containing all particulars relative thereto and shall at all times allow the Company to inspect such record. The Participant shall within 30 days from the expiry of each period of Insurance furnish such particulars and information as the Company may require. The Contribution for each period shall thereupon be adjusted and the difference paid by or allowed to the Participant as the case may be subject to any minimum Contribution required.

جميع التفاصيل المتعلقة بذلك وأن يسمح للشركة في جميع الأوقات بمراجعة وتدقيق ذلك السجل. ويلتزم المشترك بتزويد الشركة بجميع المعلومات والتفاصيل التي تطلبها الشركة خلال ثلاثة أيام من تاريخ انتهاء كل فترة تأمين. تعديل المشتركة بعد انتهاء كل فترة تأمين وفرق يدفعه المشترك أو يدفع له، حسبما يقتضي الحال وفقاً لأي حد أدنى لملبغ الاشتراك المطلوب.

5) Cancellation

This Policy may be cancelled at any time at the request of the Participant in writing in which case the Company will retain the customary short period rate for the time the Policy has been in force. This Policy may also be cancelled at any time at the option of the Company, on thirty days' notice to that effect being given to the Participant, in which case the Company shall be liable to repay on demand a ratable proportion of the Contribution for the unexpired term from the date of the cancellation.

6) Reasonable Care and Selection of Employees

The Participant shall take all reasonable care in the selection and employment of competent employees and shall take reasonable precautions to prevent accidents and to comply with statutory requirements. If any defect or danger shall be discovered, the Participant shall take all the necessary steps in remedying or removing such defect or danger.

7) Alterations of Risk

If any change shall occur materially varying any of the circumstances disclosed to the Company, the Participant shall as soon as reasonably practicable give notice of such change with full particulars thereof and the Company shall have the right to vary the terms of this Policy.

(5) الإلغاء

يجوز إلغاء هذه الوثيقة في أي وقت بناءً على طلب المشترك خطياً، وفي تلك الحالة تحتفظ الشركة بسعر الفترة القصيرة المتعارف عليه عن المدة التي كانت خلالها هذه الوثيقة سارية. ويجوز أيضاً إلغاء هذه الوثيقة في أي وقت باختيار الشركة بموجب تقديم إشعار إلغاء مدته ثلاثة أيام بهذا للمشترك، وفي هذه الحالة تكون الشركة مسؤولة عند الطلب عن رد معادل لنسبة الاشتراك عن المدة المتبقية من تاريخ الإلغاء.

(6) العناية المعهودة عرفاً واختيار الموظفين

على المشترك أن يتخذ جميع العناية المعهودة عرفاً في اختيار وتوظيف موظفين أكفاء وأن يتخذ الاحتياطات المعهودة عرفاً لمنع وقوع الحوادث وأن يتقيّد بجميع الالتزامات والمتطلبات القانونية. وفي حالة اكتشاف أي عيب أو خطر، يجب على المشترك اتخاذ جميع الخطوات الضرورية لمعالجة وإزالة مثل ذلك العيب أو الخطر.

(7) تغير المخاطر

إذا حدث أي تغيير جوهري في أي من الظروف التي تم الإصلاح عنها للشركة، على المشترك في أقرب فرصة ممكنة إشعار الشركة بذلك ويحق للشركة تغيير شروط هذه الوثيقة وفقاً لذلك.

(8) تعديل الوثيقة

8) Alterations to Policy

No alteration in the terms of this Policy will be held valid unless the same is signed or initialled by an authorized Official of the Company.

لا تعد أية تعديلات على شروط هذه الوثيقة أو أحکامها سارية المفعول ما لم يتم التوقيع عليها من قبل مسؤول مخول في الشركة.

9) Arbitration

If any difference arises out of this Policy the Company shall immediately notify the Participant in writing of his right to refer the difference to arbitration. Such difference shall be referred to the decision of an Arbitrator to be appointed in writing by the parties in difference or if they cannot agree upon a single Arbitrator to the decision of two Arbitrators one to be appointed in writing by each of the parties within thirty days after having been required in writing so to do by either of the parties or in case the Arbitrators do not agree of an Umpire appointed in writing by the Arbitrators before entering upon the reference The Umpire shall sit with the Arbitrators and preside at their meetings and the making of an Award shall be a condition precedent to any right of action against the Company If the Company shall disclaim liability for any claim hereunder and such claim shall not within two Gregorian years from the date of such disclaimer have been referred to arbitration under the provisions herein contained then the claim shall for all purposes be deemed to have been abandoned and shall not thereafter be recoverable hereunder.

(9) التحكيم
في حالة حدوث أي خلاف حول هذه الوثيقة، على الشركة أن تخطر المشترك كتابة على الفور بحقه في حالة الخلاف إلى التحكيم بواسطة محكم يعين كتابة من قبل طرفين الخلاف.

وإذا لم يتفق الطرفان على محكم فرد، يحال الخلاف إلى التحكيم بواسطة محكمين، يعين كل طرف محكم كتابة خلال ثلاثة أيام يوما من تاريخ طلب أي من الطرفين المحكم في إصدار بتعيين المحكم، ويعين المحكمان كتابة محكما ثالثا لرئاسة مجلس التحكيم، يرأس المحكم الثالث اجتماع المحكمين، وتكون صلاحية مجلس التحكيم في إصدار حكم التحكيم شرطاً مسبقاً لأي حق للتقاضي ضد الشركة، في حالة رفض الشركة المسؤلية عن أي مطالبة بموجب هذه الوثيقة ولم تحل تلك المطالبة إلى التحكيم خلال سنتين شمسيتين من تاريخ رفض المطالبة بموجب هذا الشرط، تعتبر المطالبة لجميع الأغراض قد تم التخلص منها، ولا يجو تبعاً لذلك الحصول عليها بموجب هذه الوثيقة.

(10) الاختصاص القضائي
تنفذ الوثيقة الأحكام القضائية الصادرة أو التي تم الحصول عليها من محكمة مختصة ضمن الاختصاص القضائي للدول المبينة في الجدول فقط.

10) Jurisdiction

This Policy applies only to judgements delivered by or obtained from a Court of Competent Jurisdiction of the countries stated in the schedule.

11) Observance of Terms

The due observance and fulfillment of the Terms Limitations and Conditions of this Policy so far as they relate to anything to be done or complied with by

(11) التقيد بالشروط
يعتبر التقيد الدقيق والالتزام بشروط وقيود وأحكام هذه الوثيقة، بقدر ما ترتبط بأي عمل يتم القيام به أو الامتنال له بواسطة

the Participant shall be conditions precedent to any liability of the Company to make any payment under this Policy.

المشتراك ، بمثابة شروط مسبقة لمسؤولية الشركة في القيام بتسديد أي دفعات بموجب هذه الوثيقة.

Note: In the event of inconsistency or discrepancy between the English version and any other language version, the English language version shall prevail.

ملحوظة: في حالة وجود تعارض أو تناقض بين النسخة الإنجليزية وأي نسخة بلغة أخرى، يعمل بالنسخة الإنجليزية.
